

For Network Manager Install:

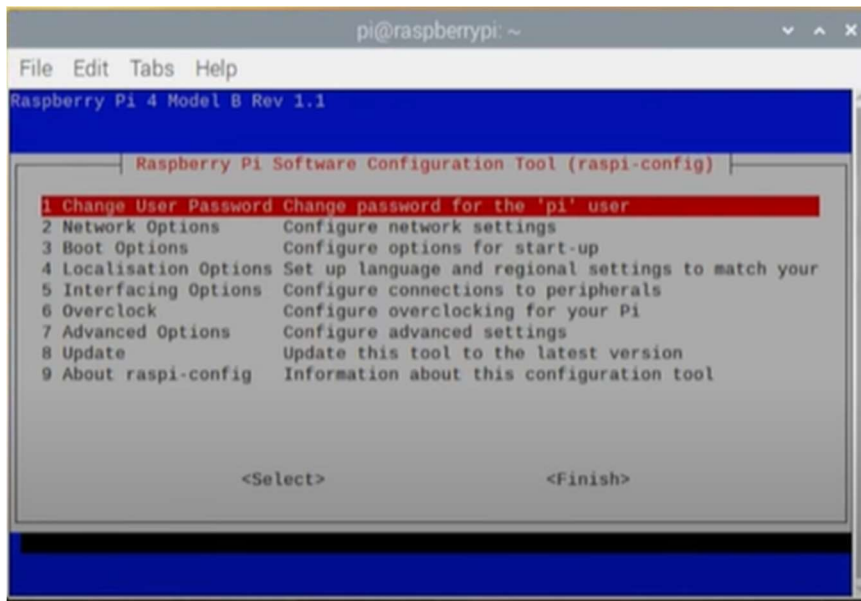

Codes:

1. `sudo apt-get update && apt-get upgrade`
2. `sudo apt-get install network-manager network-manager-gnome`
3. `sudo systemctl stop dhcpcd.service`
4. `sudo systemctl disable dhcpcd.service`
5. `sudo systemctl enable NetworkManager.service`
6. `sudo systemctl start NetworkManager.service`

For VNC remote service:

Codes:

1. `sudo raspi-config`

Go to interface Options

Click VNC and enable it.

Go to Advanced Options and click on Expand Filesystem

Then it will ask you to restart and restart it.
